Shaping Better Lives

Zoomi+
High Chair

Zoomi+ is the ideal feeding chair for children and adults who require a little extra postural support.

With its mobile skis, quick release tray and padded seat, the Zoomi+ comes with some great benefits. It can be easily maneuvered from room-to-room, enable mealtime inclusion and provide the user with greater comfort.

The high chair is ideally suited to classroom and home environments for feeding and/or activities. The seat and footrest are easy to adjust, so you can alter the height and depth for your child as they grow.

The Zoomi+ is lovingly created using carefully selected materials that not only look great but also lowers health and safety risks to the user.

The Zoomi+'s wooden frame has anti-microbial properties that ensure surfaces are kept hygienic, which helps to reduce any risk of cross-infection and is especially useful in multi-user environments such as nurseries and schools.

One size fits all. Available in four colours.

contains...

Features & Benefits

High Back Support

Gives higher levels of support.

Contoured Seat Base

Gentle contouring provides support and gives stability for sitting, promoting engagement and focus on the task at hand.

Made for the Real World

Wipe-clean surfaces as standard ensure cleaning the Zoomi+ is easy.

Colour Options

Zoomi+ comes in four colours (Red, Blue, Lime and Black) and the contemporary design helps to promote social inclusion.

Arm Supports

Assists with transfers promoting independence. Used for the Quick release tray.

Perfectly Customisable

With exceptional adjustment of Zoomi+, along with a great range of optional accessories, your child's Zoomi+ can be tailored to them, supporting them to achieve their goals and more!

High Weight Rating

Zoomi+ has a max user weight of 85kg. Its sturdy frame design provides stability and prevents chair movements.

Quick Release Tray

Supports upper limbs while providing a space for work and play, with smart connections making it easy to adjust and remove.

Foot Support

Slotted footboard supports the feet while a transfer step facilitates standing transfer.

Mobile Ski's

Makes the Zoomi+ high chair easier to move, ideal for pushing under tables!

Integrated Handle

Featuring an integrated push handle, the Zoomi+ can be moved around home with ease.

Optional Accessories

Transfer Step

Add on accessory to facilitate a standing transfer.
