

This installation checklist is made available to facilitate the delivery of this special purpose car seat or restraint only, it does not replace the need to consult the user manual as required.

1 - Client and vehicle details

Date of Installation		Client age at time of installation	
Client Name			
Client weight at time of installation		IMPORTANT: Check user weight is within this range prior to commencing installation: 0-18kg	
Main vehicle that client uses for the majority of their travel	Make and model:		
	Year of manufacture:		
Other vehicles used for transport have been checked for compatibility with the Hero NXT		<input type="checkbox"/> Yes	<input type="checkbox"/> No

2 - Installation and fitting of Hero NXT

It is recommended images are taken of each completed installation step. These images can be stored in both AT supplier and prescribing therapist's client record system for future reference.

Mandatory Installation Points – tick when each step is complete

- ISOFIX connection made through factory installed ISOFIX points when you can see a green strip displayed on both ISOFIX arms – If no ISOFIX is present, abort delivery of Hero NXT
- The Hero NXT is pushed rewards in the vehicle seat so the seat is as close to the vehicle backrest as possible.
- Foot prop is swung out and is angled away from the seat – (click heard and no red section visible at the top of the foot prop shaft)
- Length of foot prop is extended and is clicked into place to reach the floor of the footwell, ensuring appropriate pressure is applied through the footprop. If the foot prop does not reach the floor of the footwell, cease installation.
- The damping bracket has been adjusted so it makes contact with the backrest of the vehicle seat
- Identify whether restraint to be used in reward or forwards facing position using the below parameters:
 - **Reward facing** – for children 40-105cm tall
 - **Forward facing** – from 15 months and up, 76-105cm tall
- Shoulder straps are same level as child's shoulder or slightly higher; they must not angle down behind the shoulder or angle upwards inline or above the ear
- Harness has been secured and tightened after it has been fitted to the user
- The webbing of the inbuilt harness is not twisted or trapped

3 - Parent/caregiver training on the Hero NXT

Training and education has been given to parent/caregiver on how to:

- Remove and reinstall the Hero NXT
- Adjust the restraint
- Use and fit all accessories delivered with Hero NXT
- Use swivel function within Hero NXT
- Operate the tilt mechanism
- Check whether the restraint is locked in the reward or forwards facing position

IMPORTANT

There are differences in the road laws between each state and territory in Australia regarding requirements of transporting children with disabilities and medical conditions. Please refer to the MACA website www.macahub.org/resources/forms-and-templates to find out about requirements and processes that apply to the specific state or territory that the Hero NXT will be used in.

All below parties to complete and sign the below
