

Flux Walker

The Flux walker is a walking aid that promotes natural walking. Opening out in walking direction and optically and physically free from interfering structural parts, the Flux Walker encourages upright posture and natural walking movements.

Lightweight posterior walker: Dependable support for children & adults

Height-adjustable grip bars grow with the user, making it easy to adjust to different body heights

Folding mechanism with **safety lock** eases transport and storage

Friction brakes and bumper wheels included in package

Opens out in walking direction and optically and physically free from interfering structural parts

Reverse-roll locks (included in package) can be deactivated so the walker can roll forward and backward
